

De La Rosa Winery Burgenland Austria

The winery is located east of Vienna, close to the Hungarian border, on the sunny hills next to Lake Neusiedl. This region, known as Pannonia, is blessed with 300 sunny days a year, and over 2,000 sun-hours.

Moderate winters, hot, very dry summers and warm days in late fall characterise the climate.

Vines are planted on loess, black soil, gravel and sand. Among the red varietals Zweigelt and Blaufraenkisch dominate. Pinot Blanc and Welsch Riesling are the main white varietals. This spectrum is augmented by the aromatic Bouvier, Muskat Ottonel, and Traminer grapes, which can be found in the best Trockenbeereauslesen.

Our Vineyards

All our vineyards are located in and around the wine growing community of Mönchhof. Our most important growing areas are “Kreuzkapelle” and “Breitenaecker”; this soil is rich in humus and even in hot, dry summers no water is needed to keep the vines healthy. Our largest vineyards are called “Wiesaecker” and “Spaehlingaecker”. These are sandy-loam soils, which are directly located 4 meters above natural spring waters within the soil. These also do not require water in very dry summers. The only vineyard just outside of the official Moenchhof area is the “Stationsacker” in Frauenkirchen. This is a warm black and loess soiled region with perfect conditions for noble sweet wine production. The best red wine growing areas of our vineyards are at “Pohnbuehl” and “Rappbuehl” which are located at the only hill in the region, directly to the south. The hill is the so-called Wagram, expanding from the town of Neusiedl east including Weiden, Gols, Moenchhof and Halbturn.

All wines are certified ORGANIC by Austria Bio Garantie.

All wines are KOSHER and Mevushal.

Taryag Gruner Veltliner

Frontline \$168 2 cases \$144

Ur Kasdim Sparkling Muscat

Frontline \$135 2 cases \$110
